

# INNOVATION IN EVERY SWING

**PROTEE**

# A REVOLUTIONARY GOLF LAUNCH MONITOR

The **ProTee VX** redefines indoor golf with precision and performance. Engineered with high-speed cameras and Artificial Intelligence, it delivers stunning ball, club, and impact data for an unparalleled swing analysis.

Its customizable ProTee Labs interface and seamless compatibility with top golf simulation software provides a personalized experience for golfers of all levels. With easy setup and unmatched value, the ProTee VX is the ultimate solution for year-round golf improvement.

- **INSTANT REACTION**

Powered by A.I. and Machine Learning

- **UNRIVALED 24/7 SUPPORT**

Not our words, just check what our fans say about it online ;) Our team is also continuously making updates to the software to improve your golf experience.

- **SWING CAMERAS**

Compatible with any USB driverless camera, no need for unnecessarily expensive cameras.

- **BUT THERE'S MORE**

No marked balls or clubs needed, works with both right and left handed players without having to recalibrate. The VX offers all this and so much more for an affordable price to ensure it is accessible to people of all budgets.

And of course, **all without subscriptions!**
