PROTEE
25 YEARS OF INNOVATION

INNOVATION IN EVERY SWING

The **ProTee VX** redefines indoor golf with high-speed cameras and advanced AI, capturing remarkably precise ball, club and impact data for deeper swing insight.

Inside the customizable ProTee Labs interface, golfers can analyze their game through powerful tools like the wedge matrix for distance control, bag mapping for optimal gapping, an impact heatmap for strike patterns and a carry optimizer for maximum consistency. With easy setup and unmatched value, the ProTee VX is the ultimate solution for year-round golf improvement for golfers of every level.

EXPERTISE FROM HOLLAND

Designed in Holland, ProTee embodies **innovation in every swing**, backed by 25 years of in-house expertise, unrivaled support (not our words, just check what our fans say about our support online), and a global network of over 150 resellers.

Dare we say the VX is the **best launch monitor** in its price range?

YES,
100%

WELCOME TO THE FUTURE OF VIRTUAL GOLF

Built from the ground up in Unreal Engine, our next-gen golf simulation game redefines realism, precision, and immersion. Every swing, every lie, every blade of grass –crafted with stunning visual fidelity and powered by advanced physics for a true-to-life experience.

Whether you're training, competing, or just teeing off with friends, our game transforms your golf simulator into a world-class digital course. Real-time shot tracking, dynamic weather, and meticulously recreated environments bring the thrill of the game indoors like never before.

This isn't just another golf game. This is golf – elevated!
